

Notice of a Positive COVID-19 Case in School

February 4, 2021

Dear Families,

The purpose of this letter is to inform you that KFL&A Public Health has been notified that **a student at École Sir John A. Macdonald Public School tested positive for COVID-19 on February 4, 2021.** Please note, it has been determined that this case poses no risk to students or staff. As such, no cohorts will be required to isolate at this time and the school will remain open. Instances when a positive case in a school poses no risk to the school include:

- The case is learning or teaching virtually and has not been in the school.
- The case was already isolating and not attending school because they were previously identified as a close contact of a case.
- The case was not present at the school when they were infectious.

KFL&A Public Health works closely with schools to ensure that necessary steps are taken to prevent further spread of the virus both in the school and the community.

Cases in schools must be reported locally and provincially. We are sharing this information with you to ensure you have accurate information. No further information will be released to maintain privacy.

We encourage you to continue to monitor and screen your student daily for symptoms of COVID-19 as most cases of COVID-19 are acquired in the home setting. Please continue to follow all public health guidelines which include maintaining physical distance, wearing face coverings, and cleaning your hands frequently.

Sincerely,

KFL&A Public Health

**Note: Personal health information may be provided to schools only for the purpose of contact tracing. Schools must protect the personal information of their students and staff. The name of the individual who tests positive for COVID-19 and their contacts will not be disclosed publicly.*
