

# How to Install an App on a Limestone iPad

**Step 1: When you turn on an iPad you will have to go through the following setup process.**

**Note: If the iPad is already connected to Wi-Fi Proceed to Step 2 (Page 3).**

1. Make sure the iPad is plugged in and charging.
2. From your Home screen, go to **Settings > Wi-Fi**.
3. Turn on Wi-Fi. Your device will automatically search for available Wi-Fi networks.
4. Select the name of your home Wi-Fi network that you want to join.
5. Enter your Wi-Fi password and tap **Join**. If you cannot tap Join, the password you have entered is incorrect.
6. Within a few minutes, the iPad will reboot and show the Apple logo, this may take a few minutes to complete.
7. You will be prompted to select a language, select **English**
8. Select **Canada**
9. At the Quick Start screen select **Set Up Manually** at the bottom.

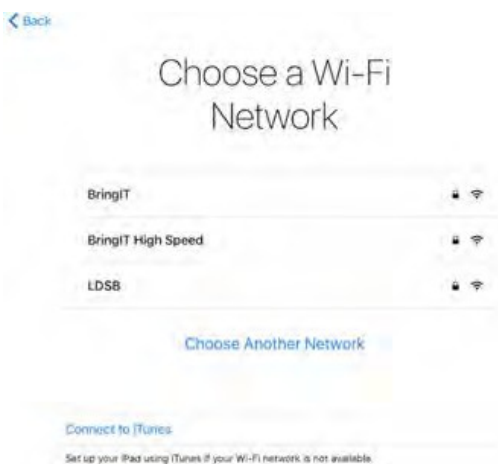

## Quick Start

If you have an iPhone or iPad running iOS 11, bring it nearby to sign in automatically.

If you want, you can also set up this iPhone manually

[Set Up Manually](#)

10. Select the name of your home Wi-Fi from the list of available networks, you will have to **enter your password** then click **Join**.

11. Select **Next** on the Remote Management screen
12. Select **Continue** on Express Settings screen
13. Select **Continue** on Keep Your iPad Up to Date screen
14. Select **Not Now** on Improve Siri & Dictation screen
15. Select **Continue** on Appearance screen
16. Select **Get Started** at the Welcome to iPad screen.

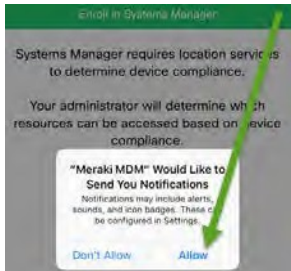

Wait for a few minutes and you will see some of the Apple Apps install and the background will change to the Limestone Logo.

17. You will then see the Meraki MDM App install along with, Google, Read & Write and other apps.

18. Open the **Meraki MDM App**

19. You will be prompted to allow the Meraki MDM app to send you **notifications**, select **Allow**.

20. Next you will be prompted to enable Meraki to track the device's location, select **Enable**. This helps us find iPads when they are lost or missing.

21. You will then be prompted to confirm that you want to allow Meraki MDM to access the iPads location, select **Allow While Using the App**

22. You can now press the Home button and go back to the home screen. The iPad is now setup, follow the steps below to install apps.

## Step 2: Install any app or Teams from the Meraki MDM App Catalog.

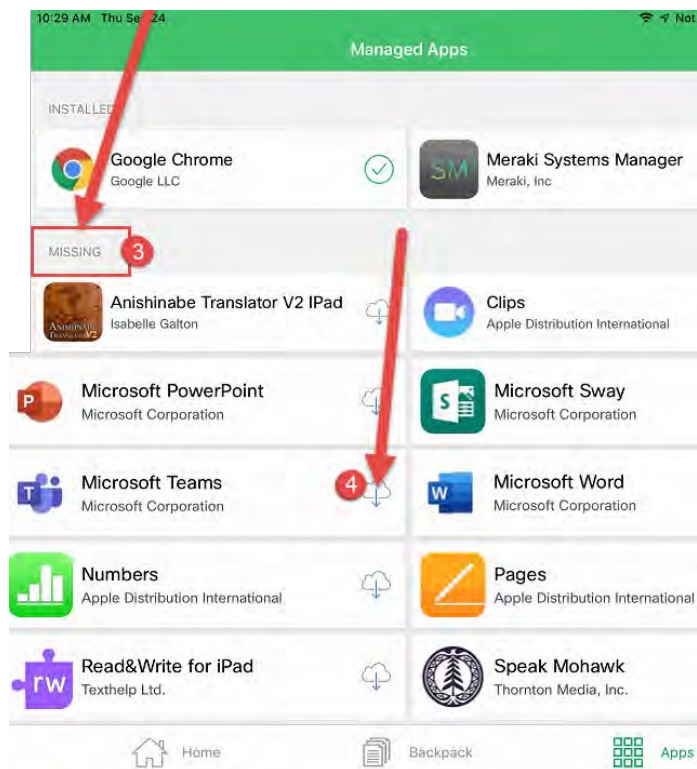

1. Tap to open SM Meraki MDM

2. Select Apps  from the following screen.

3. On the **App** page you will see **Missing**, which will list all the Apps that are available for you to install.
4. To install **Microsoft Teams** or any other **App**, click on the **cloud icon**  , it will start to spin and then turn into a green checkmark. You can now close SM Meraki MDM and go back to the home screen and the App will install within a minute or two.
